

Apple Wallet

Here's how you can link your local credit card (Visa, MasterCard, and American Express) to Apple Pay.

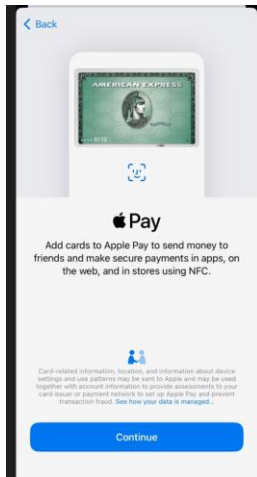

1. Open Wallet

2. Tap on 'Add Credit or Debit Card'.

3. Tap on 'Next' in the top right of the screen.

4. Position your credit card in the frame or manually enter in your credit card details.

5. Verify your name and card number. Enter your credit card's expiration date & security code.

A mobile application interface for card verification. At the top left is a blue back arrow and the text "Back". At the top right is the text "Next". The main heading is "Card Details" in bold black font. Below the heading is the instruction "Verify your card information." in a smaller font. There are two input fields: the first is labeled "Name" and contains a blacked-out name; the second is labeled "Card Number" and is currently empty.

A mobile application interface for card verification. At the top left is a blue back arrow and the text "Back". At the top right is the text "Next". The main heading is "Card Details" in bold black font. Below the heading is the instruction "Verify and complete your card information." in a smaller font. There are two input fields: the first is labeled "Expiration Date" and is currently empty; the second is labeled "Security Code" and is currently empty.

6. Agree to the Terms and Conditions.

Terms and Conditions

The storage and usage of your payment card number (and credentials corresponding to your payment card number) in this digital wallet are subject to the terms and conditions of the applicable cardholder agreement with your payment card issuer, as in effect from time to time. Please contact your payment card issuer for more information.
